

The Flood Resilience Alliance Project in the Philippines (FRA) aims to strengthen resilience capacities in the communities that are in risk areas.

"Community Involvement is a vital aspect of the Flood Resilience Alliance – Philippine Project (FRA Ph.). It is through their ideas and knowledge that we were able to design innovations suited to the short-term and long-term needs of communities in the face a hazard. In the FRA Ph, we not only enhance community resilience to flood and other hazards but also help them foster sustainability."

RICHARD J. GORDON

Chairman and CEO of the Philippine Red Cross

The Flood Resilience Alliance Project in the Philippines (FRA) aims to strengthen resilience capacities in the communities that are in risk areas.

Write a message to your neighbor or family member with a suggestion on how to prepare for flooding.

"At the Flood Resilience Alliance - Philippines Project, we can help our communities thrive amidst the challenges of flooding. Our collective effort and resources will help us develop innovative and effective strategies to strengthen the flood resilience of communities. Join us in this project, and let us work as hand in hand to create a flood-resilient Philipoines.

DR. GWENDOLYN T. PANG
