

Questions of Specific CAP Usage

**CAP Workshop
Bangkok, Thailand
August 23, 2016**

Elysa Jones, Chair OASIS
Emergency Management Technical Committee
elysajones@yahoo.com

CAP Subcommittee

- CAP-v1.2 Errata 01 underway
- Mime Types
 - application/edxl-cap+xml
 - application/edxl-cap+json
 - application/edxl-cap+asn1
- CAP-v1.2 Practices Guide Version 2.0 underway
 - <https://www.oasis-open.org/committees/download.php/58748/CAP-v1.2-practices-guide-v1.0-wd01-jw02.docx>

Uses of multiple <info> blocks in one CAP message

- Multiple languages
- Multiple geographic areas
- Multiple timing
- Multiple severities
- Combinations
 - Changing paths/expiration of weather--tornadoes;
 - Different severity and instruction per area--severity zones--tsunami
 - Protective Action Zone Recommendations for toxic/ hazardous releases--shelter in place v. evacuation--where speed of alerting is imperative
