<headline>TEMA alert: COVID-19 disease outbreak (14 March, Trinidad and Tobago)
Help prevent spreading and call your doctor if you have symptoms</headline>
<description>The Ministry of Health, Trinidad and Tobago, advises of the country's
second confirmed case of Coronavirus Disease 2019 (COVID-19). The patient had
travelled within the last 14 days. The relevant County Medical Officer of Health has
already initiated tracing of persons who have been in close interaction with the patient.
All persons who may have been exposed will be quarantined. As more information
becomes available, the public will be advised, as appropriate.</description>
<instruction>The symptoms of COVID-19 include fever, dry cough, or shortness of breath.
If you have these symptoms, call your doctor. To stop the spread of germs: wash your
hands often with soap and water for at least 20 seconds; avoid touching your eyes, nose,
and mouth; clean and disinfect frequently touched objects and surfaces. Avoid close
contact with people who are sick. Cover coughs and sneezes, and then immediately
wash your hands.</instruction>
