

Master Disaster I & II

"Tactics -Tools - Technology"

Master Disaster - I (Readiness & Resiliency)

We come to your Company, Office, Community, Complex or Place Of Worship, and in six, 1.5 hour lessons we deliver a unique and highly focused class on personal readiness and resiliency. We will:

- Help you to prepare for disaster using tools you already own.
- Help you to manage injuries until responders arrive
- Help you to clean water making it safe for drinking/cooking/wound care.
- Help you to shelter in place as a team, in a non-destructive manner.
- Help you to prepare for the absence of responders and infrastructure.
- Help you to work as a team until effective response and resources arrive.

Master-Disaster – II (Community & Cooperation)

In six separate, 3-4 hour sessions, working to your budget and using your existing organizational structure, or helping you design one, we help you develop a simple and yet effective response that is in line with the national standard (NIMS/ICS). Effectively, we help you prepare an immediate human response to disastrous events. And then? Then we help you to speak the language of those that are coming to your aid. We will show you how to help inbound responders, help you. But before that we will:

- Help you structure your teams
- Help you develop your SOP's (Standard Operating Procedures)
- Help you to prioritize emergency tasks (People before property)
- Help you to create a personalized plan
- Help you to train then test and adjust your plan

Who should hire us?

- **Companies:** looking to prepare their staff or increase overall safety awareness.
- **Communities:** looking to increase resident readiness and self-reliance.
- **Congregations:** looking to improve their resiliency and preparedness.

Why Hire us?

Our courses were developed after decades of exposure to communities facing tough times. Our curriculum is born of cumulative experience in diverse and demanding environments, Here are some notable ones:

- **East Coast of Africa.** Humanitarian Aid - (Famine)
- **Iraq.** Aid Delivery Operations – (War/Widespread Instability)
- **Kuwait.** Fire/Rescue/Haz-Mat - (Mission Support Operations)
- **Japan.** Response & Reconnaissance. - (Quake/Tsunami/Meltdown)
- **USA.** Debris Management - Moore, Oklahoma – (Major Tornado)
- **Philippines.** Medical & Reconnaissance - (Major Typhoon)

Our only goal is to provide you with the tools and insight you need in order to;

Help you protect the thing none of us can insure or replace...

-Human Life
