IFRC GO Platform

Why GO?

The GO platform provides a way for the Red Cross Red Crescent network to **capture, analyse and share** key pieces of information, ensuring help can reach areas where it is needed the most.

How does GO work?

How does GO work?

- **APIs**
  - Use secondary data from partners
  - Share IFRC data for better visibility of our assistance
  - Visualised through maps, charts and dashboards

How does GO work?

- **APIs**
  - Use secondary data from partners
  - Share IFRC data for better visibility of our assistance
  - Visualised through maps, charts and dashboards
- **Modular**
  - No one-size-fits-all
  - Secondary analysis in The Data Entry and Exploration Platform (DEEP)
  - Mobile Data Collection using ODK & KoBo

HOME / AFRICA

Africa Regional Office - Operations Room

The IFRC Africa Regional Office works in support of 49 National Red Cross and Red Crescent Societies. Through its Country Cluster Support Teams and Country Offices, it provides coordination, financial and technical support for disaster operations and longer-term resilience programmes throughout the region.

of Red Cross and Red Crescent Societies

Global response services

The Federation Disaster Response system has been developed for any emergency or disaster situation that requires a response to which a Delegation or National Society cannot respond alone. Response components are designed to fill the temporary gap or overload of existing services caused by the situation.
