# Flash Floods and Impacts

## United Nations International Strategy for Disaster Reduction (UNISDR):

- Floods and flash-floods are natural hazards with highest frequency of occurrence (43.4% of total)
- Floods and flash floods affect most people (~2 bill \$US over last 20 years; 48% of total affected by all hazards)

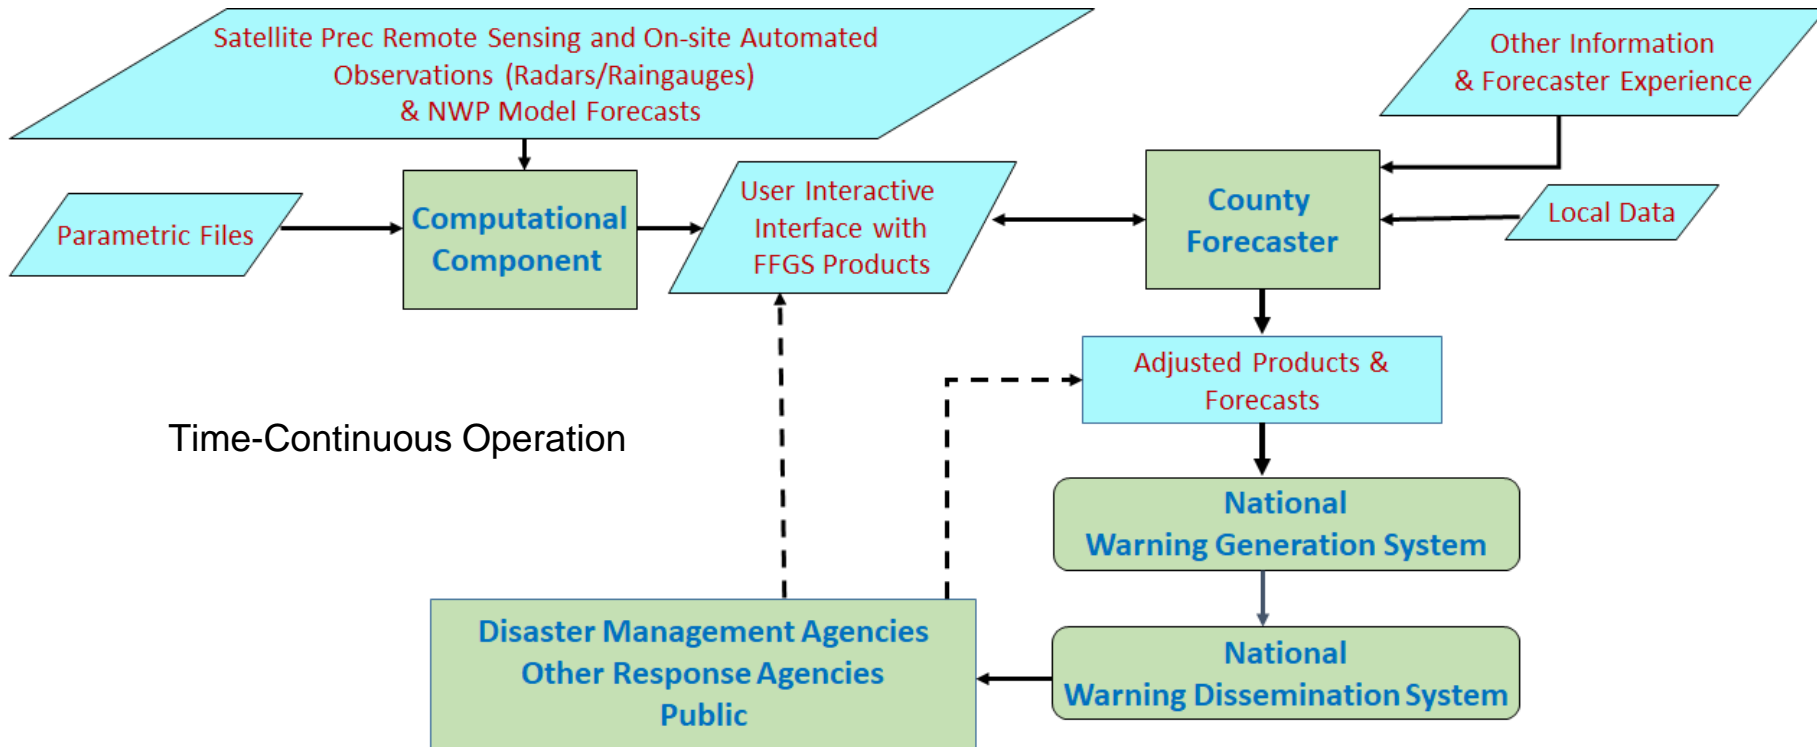

## Earlier Studies:

- Very high mortality rate among natural hazards

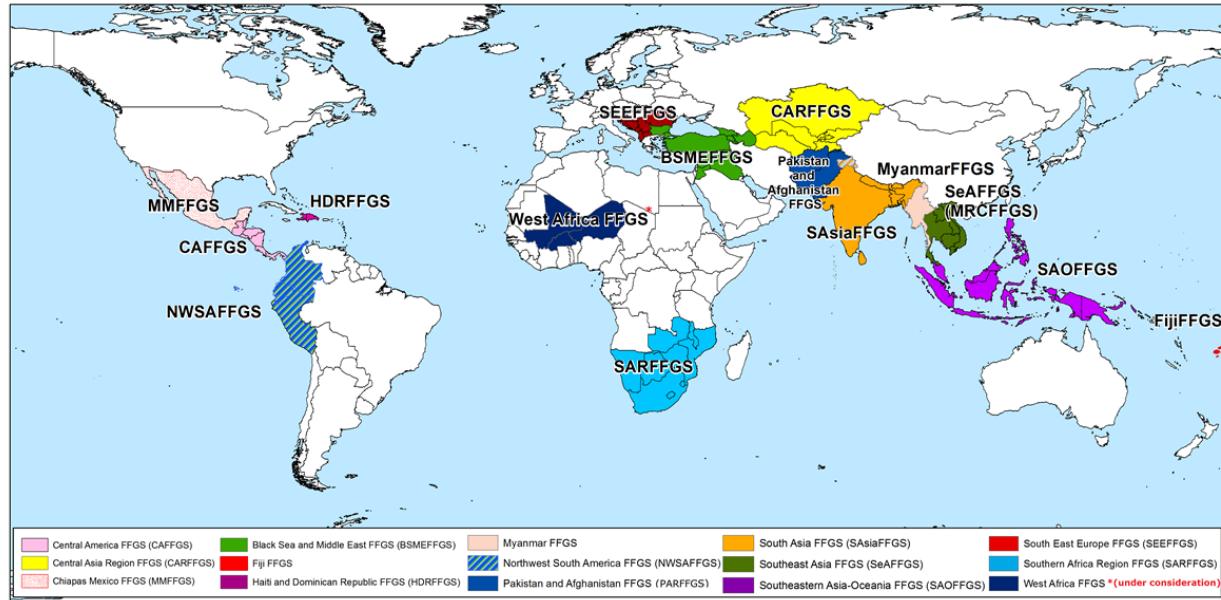

# Flash Flood Guidance System

From Global Data and Regional Hydrometeorology to National Data and Warnings

# FFGS Application Worldwide

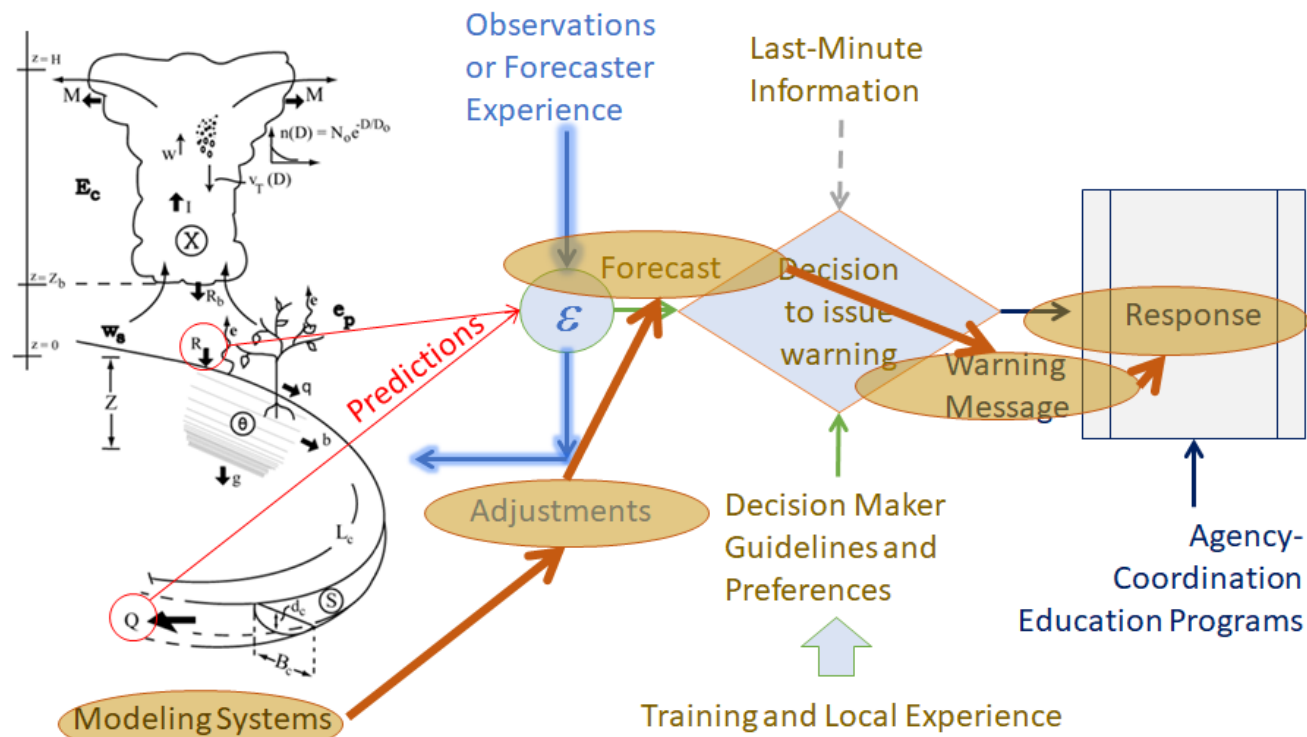

More than 60 Countries with 11 Regional Centers

The Global Initiative for Flash Floods (2008-Present)  
USAID/BHA - WMO - NOAA - HRC

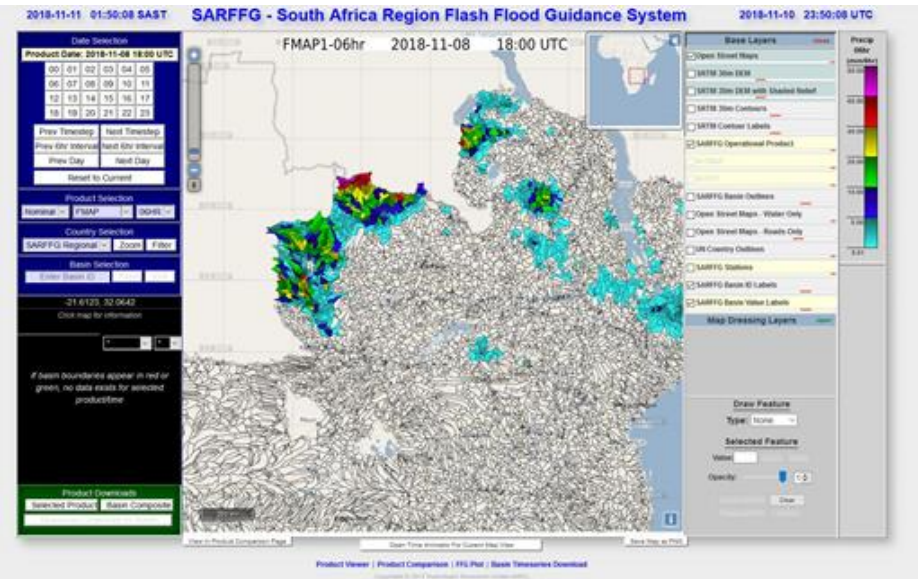

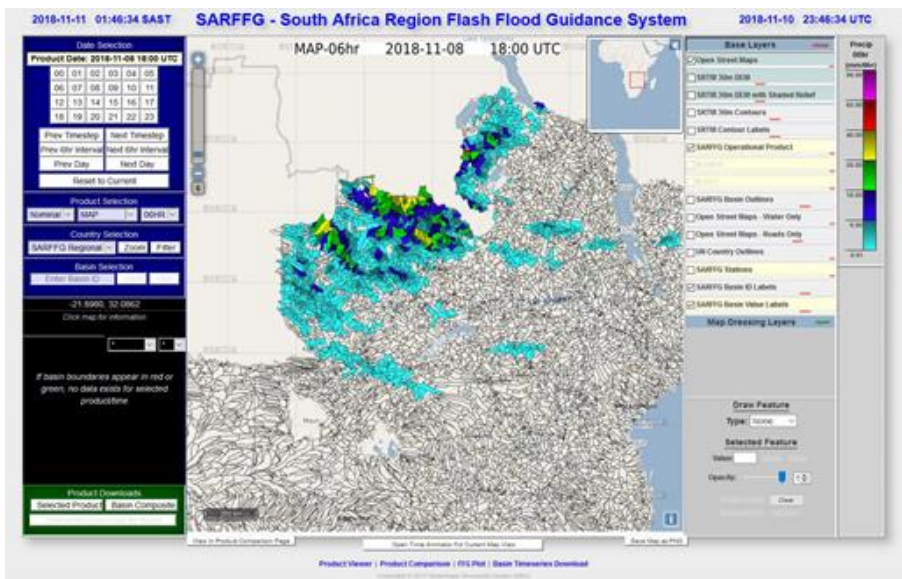

# Integrated Systems Perspective for Real-Time Warning

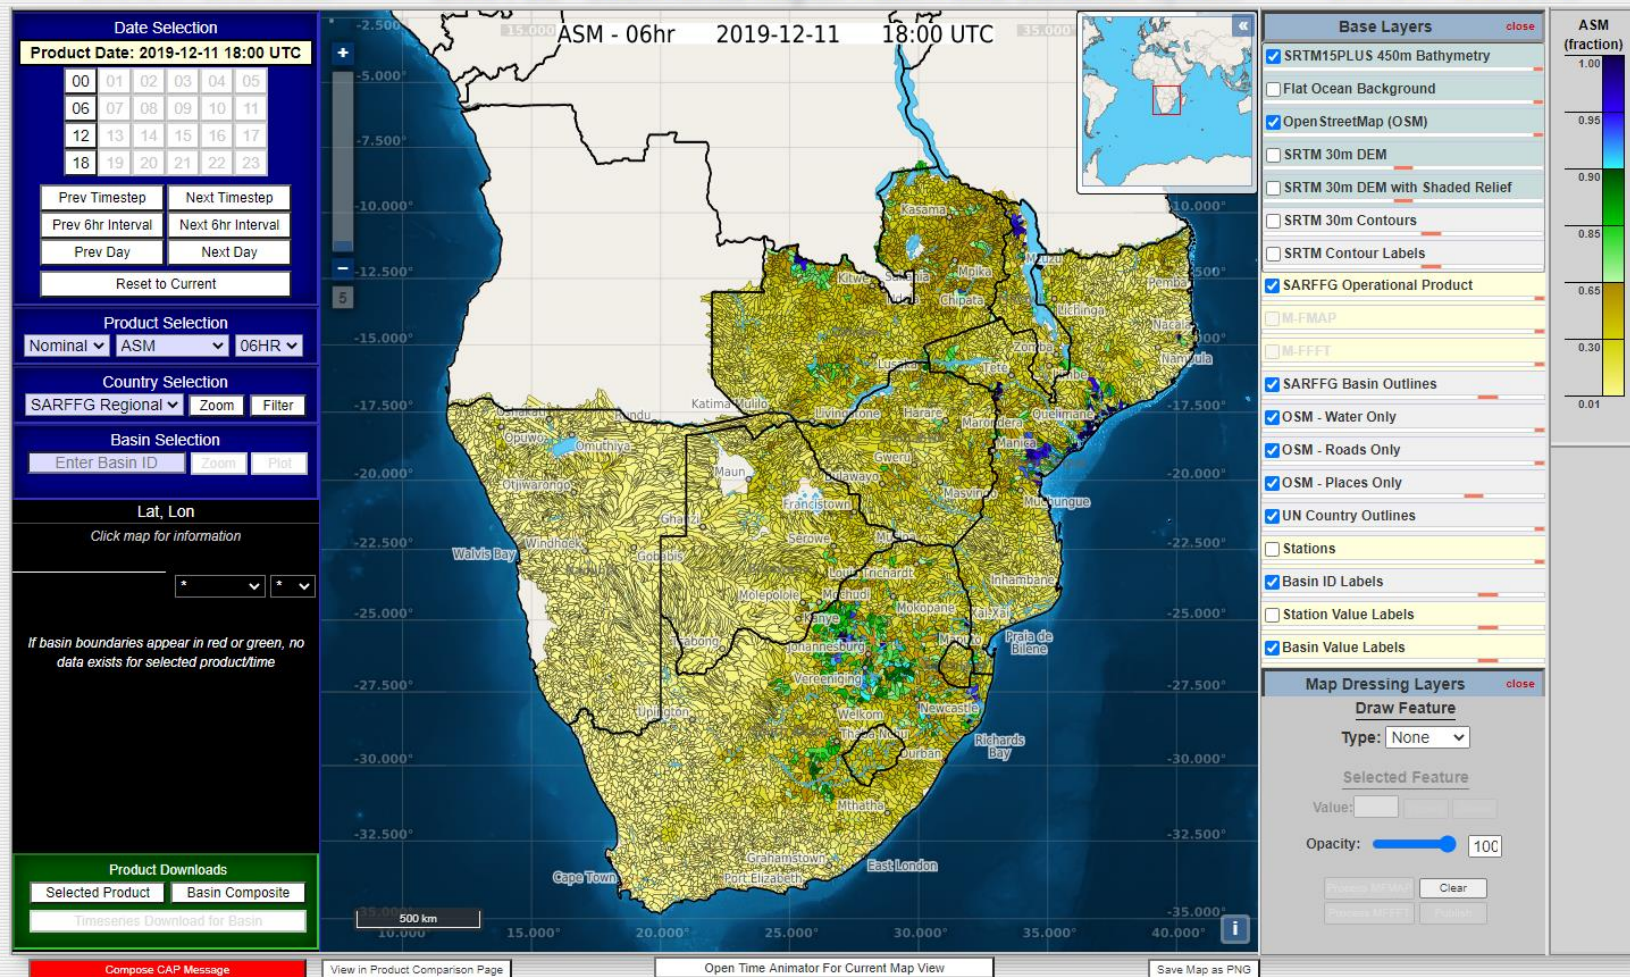

# Forecaster Interactive Interface (Multiple Products)

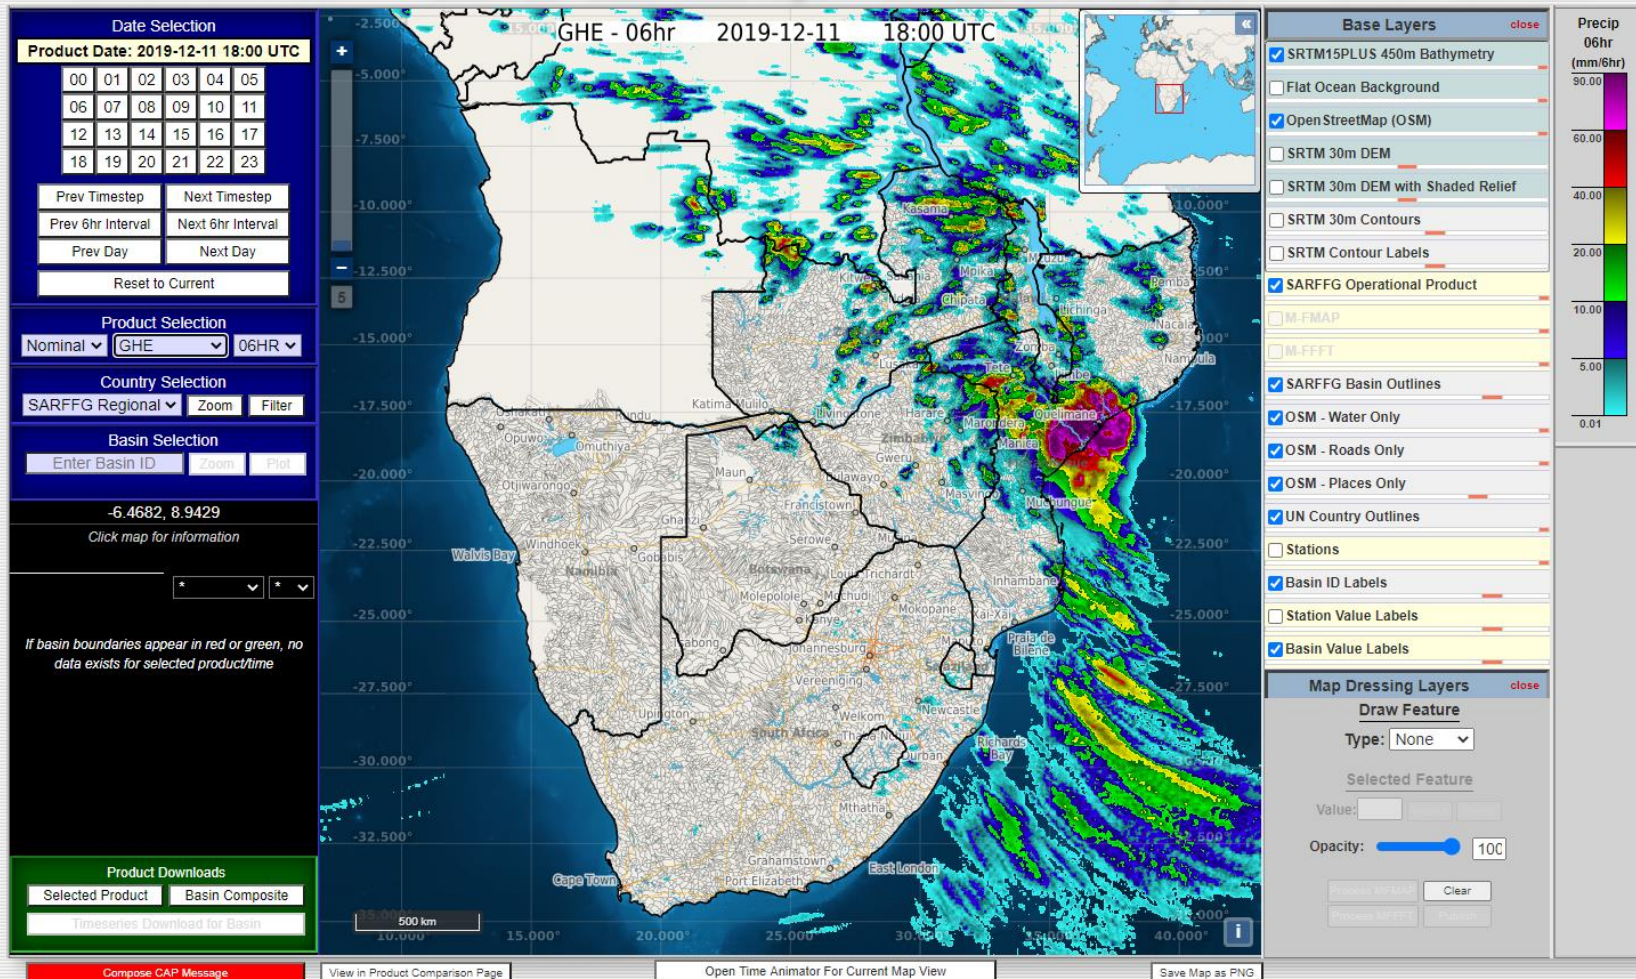

Examples from Southern Africa Region FFGS (SARFFGS)

## Event Description (Optional)

On Wednesday, December 11, 2019 <Agency> issued a flash flood warning for the south-eastern region of the Zimbabwe province. This warning includes, but is not limited to, the region from the city of Quelimane down to the region of the city of Chinde.

This warning is in effect from 8:00pm on December 11th, 2019 CAT until 2:00am on December 12th, 2019 CAT.

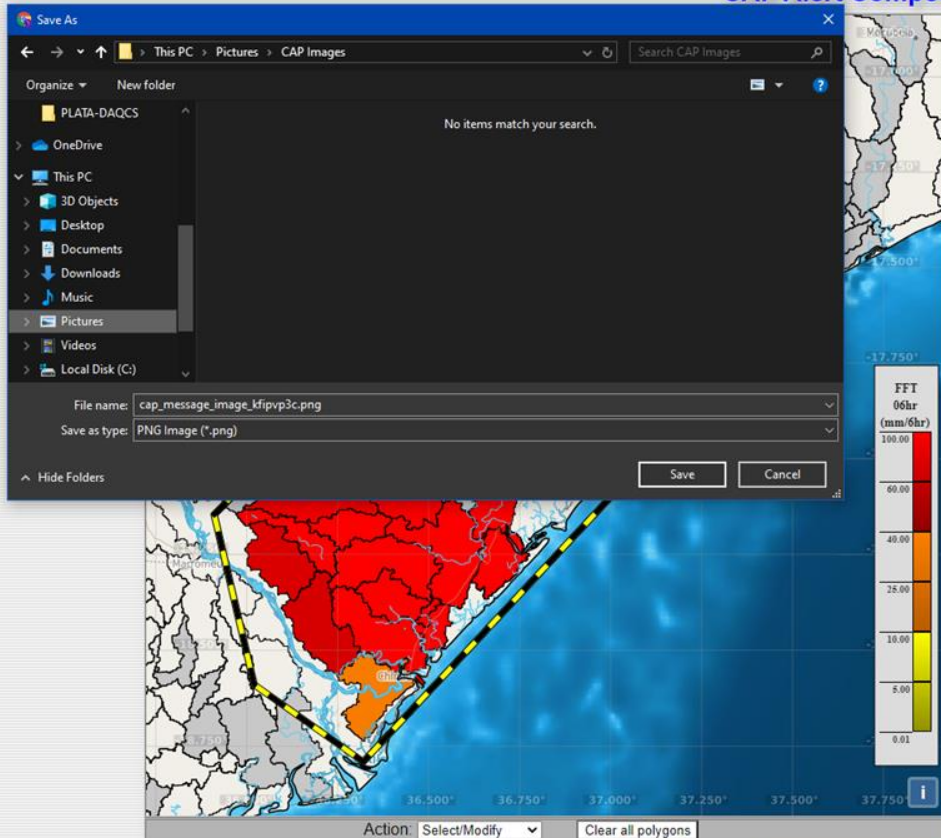

Heavy rains will likely lead to flooding, with likely extensive damage to houses and property in the area, as well as the potential for loss of life.

## Instruction (Optional)

If you are in the warning area, avoid low-lying areas or move to higher ground immediately. Residents living along streams and creeks should take immediate precautions to protect life and property. Do not attempt to cross swiftly flowing waters or waters of unknown depth.

## Adding Area Descriptions to Polygons

To edit an area description to a polygon, select the "Select/Modify" option from the "Action" dropdown menu, found below the map.

Then, simply click on the polygon you wish to edit the area description for. The selected polygon will turn white and a text box labeled "Area Description" will appear, containing the default placeholder text. Any changes made to the text in this box will be automatically saved as the Area Description for that polygon.

## Modifying Polygons

To modify a polygon, select the "Select/Modify" option from the "Action" dropdown menu, found below the map:
