

# CREATE YOUR COMMUNITY

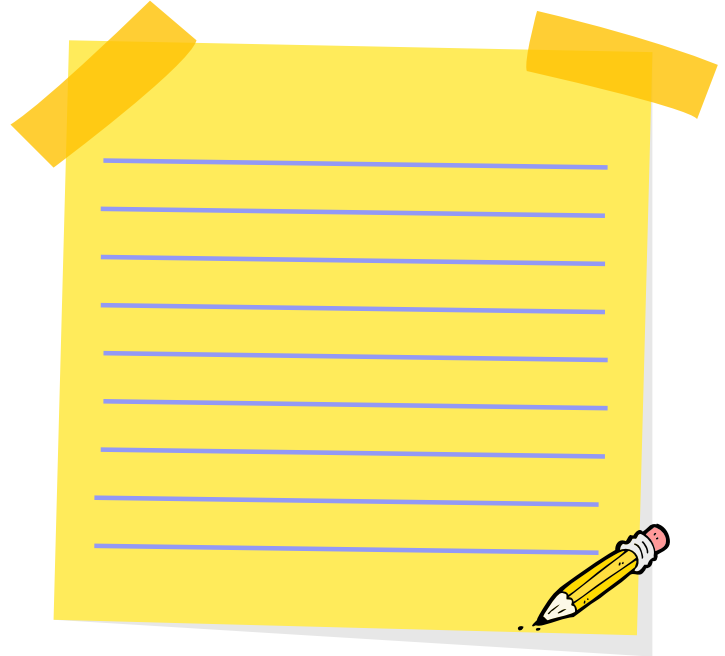

1

Imagine what your new community could look like!

2

What would you like to see?  
More parks? Different buildings?  
Different buildings?

3

Create your future community!

Create your new 3D community with materials around your home.

You can use cardboard and construction paper! What else can you find to build with?

**OR**

Draw your new community with crayons, markers, or pencil.

4

Share it with your family and friends

How will things be different?

What will the future look like many years from now?

What can you do to make this future happen?
